

# MUNYON'S PAW-PAW

In a Few Brief Weeks of Trial

## HAS WON

It Has Conquered Prejudice and Proved Its Worth

### DOCTORS

Endorse It as the Greatest of All Stomach and Nerve Remedies.

On the 3rd of October last, for the first time, I announced to the public of St. Louis that I had discovered a vegetable compound which would positively cure Dyspepsia, Nervousness and Sleeplessness. I told them that this remedy was made from the Paw-Paw fruit, which grows in India, South America, and some parts of Florida. I knew that such a bold assertion would arouse suspicion, antagonism and doubt, but after six weeks' trial I question if there is a person, no matter how bigoted, no matter how prejudiced he may be, who now questions the truthfulness of my statements, or the efficacy of this remedy. For to do so would be to impeach the testimonials of hundreds of well-known St. Louisans who have been cured or greatly benefited by my Paw-Paw remedy. Doctors will tell you that there is not the slightest doubt of the efficacy of Paw-Paw as a digestive, stomach and nerve tonic. I want to repeat now what I stated then—that I know Paw-Paw will make worn-out stomachs as good as new; will make good, rich blood and build up the nervous system; will do away with both the necessity and desire for beer, whisky, wine and other injurious stimulants. A body that is overworked, a system that is run down, requires a stimulant. Alcohol stimulates life, but let you fall. PAW-PAW LIFTS AND HOLDS YOU!

I want every weak and debilitated person to give Paw-Paw a trial. I want every doctor carefully to test this remedy and then honestly tell the public the results. I want every clergyman, when he feels exhausted, to take Paw-Paw, and then tell his friends what he thinks of it. I want every mother to introduce Paw-Paw into her home. It will prove a ready agent in curing and warding off many diseases. I want every tired woman, after a day's hard work or an afternoon's shopping, to take a tablespoonful of Paw-Paw and see how quickly it will refresh and invigorate her. I urge upon brain-workers particularly the use of Paw-Paw. It will immediately give tone and energy to the whole nervous system. If the teller who feels the need of a stimulant will step into the nearest drug store and ask for Paw-Paw, he will have no further use for whisky, beer or other stimulants. I believe that when the public becomes thoroughly familiar with the virtues of Paw-Paw it will not only be used in every home, but will be adopted into the United States Army and Navy and used in every hospital throughout the civilized world.

Sold by all druggists. Large bottle, \$1. Paw-Paw Laxative Pills, 25c a bottle.

## BUTCHER STOCK MUCH LOWER, BUT MEAT IS HIGHER

Anonymous Condition Believed by Experts to Indicate Beef Combine Is Still Doing Business, Notwithstanding Missouri Supreme Court Blow.

### "PACKERS NEVER HAD THINGS SO COMPLETELY IN CONTROL"

Dealers Say They Have Withdrawn Solicitors and Give Other Indications That They Are Not Afraid They Will Not Get Their Share.

Special to the Post-Dispatch. KANSAS CITY, Mo., Nov. 19.—"The packers never had things so completely under their control as they have now," is an expression frequently heard at the stockyards.

A member of one of the oldest firms at the yards is authority for the statement that it is no unusual thing for a buyer of one packer, after getting a trainload of stock, to order the herd divided and let each packer get a part. Stockmen consider this the strongest possible proof that the combination is working perfectly. Cattle are today nearly \$2 a hundred lower than they were a year ago. Hogs are more than \$2 lower, and yet Kansas City is paying more for its meat than it did a year ago.

There has been no reduction in the price paid by the butcher to the packer. Pork tenderloin sold to butchers a year ago, with hogs at \$7, for 15 cents a pound. Today with hogs under \$5 the butcher pays 20 cents and the consumer 25.

Porterhouse steak brings 25 cents and sirloin 17½. Just as they did when cattle were at top notch prices. Since the packers' combine was newly cemented, after the end of the Missouri proceedings, delivery to butchers has been stopped and solicitors have been withdrawn.

Butchers must go to the packing houses for their meat or pay 15 cents a hundred to have it delivered.

One of the largest butchers in the city today said he did not think he had seen a solicitor in his shop for months.

"They know," he said, "that I will buy all the meat I can and that I must buy from some one of them, and they don't want to care which one of them I get my meat from."

## 4000 TEAMSTERS BEGIN BOYCOTT TO AID STRIKE

The Chicago Union Orders All Members to Refuse to Haul Supplies to the Street Railway Company That Is Engaged in a Conflict With Its Former Employees

### THE COMPANY'S TEAMSTERS HAVE ALL QUIT WORK

Failure to Settle the Trouble by Arbitration Seems Likely to Result in the Most Serious Labor Disturbance That the City Has Suffered

CHICAGO, Nov. 19.—The teamsters' union has taken action that may result in one of the most serious labor situations ever seen in this city.

At a general meeting of the organization it was decided to order all members of the teamsters' union to refuse to deliver any articles to the Chicago City Railway Co. during the existence of a strike.

It was also decided that if any of the teamsters were discharged by the employer for refusing to deliver goods to the railway company a general strike would at once be ordered against the Chicago employers' association.

A few days since Secretary Job of the employers' association announced that any teamster convicted of blockading the lines of the street car company during the present troubles would lose his position.

The teamsters' union, which is the strongest labor organization in the city, has about 4000 members and has contracts with practically every establishment of prominence in the city that has teams of its own.

Last spring the union signed contracts with the members of the employers' association by which the sympathetic strike was ruled out of existence as far as the teamsters are concerned. The sympathetic strike is also against the constitution of the national organization.

The first development in the warfare this morning was a strike of all the teamsters in the employ of the City Railway Co. In all 60 drivers quit work.

The strike of the teamsters was in obedience to the command of the teamsters' joint council. It is the intention of the teamsters' union, if possible, to prevent the delivery of coal and supplies to the railway company by which the sympathetic strike was ruled out of existence as far as the teamsters are concerned. The sympathetic strike is also against the constitution of the national organization.

The company, anticipating the refusal of teamsters to haul supplies, is planning to obtain foodstuffs by means of the steam railroads. A shop at Third and Emerald avenue is connected with the Chicago & Eastern Illinois Railroad tracks and with the street railway company's yards by means of switch tracks, and will be used, it is said, as a base of supplies.

The stand taken by the street railway officials upon the "colored" action of the teamsters, which contention was said to have been abandoned by the men, was made clearer today when the board of the letter sent by the directors to Mayor Harrison and the aldermanic committee last night was made known. The directors said in effect that Attorney Darrow, counsel for the drawing up of the closed shop proposition, had only changed the wording and that what was embraced in the clause was the same as a closed shop. The directors, it was said, would agree to nothing except an absolute waiver of that proposition. They would not, they said, allow the union to control the delivery of supplies.

The letter further charged that union employees had committed thefts and more serious crimes and that the directors of the company would not let men of that caliber have any voice, direct or indirect, in the management.

WASHINGTON, Nov. 19.—President Roosevelt has received a dispatch from Gov. Peabody of Colorado asking that Gen. Baldwin, commanding the department of the Colorado, be instructed to supply such troops as may be necessary to preserve order in the Telluride mining district. The wagon was wrecked and the driver thrown out between the rails. The engine and several cars passed over him. # PANAMA GIVES UNITED STATES ALL WE ASK

Treaty Providing for Construction of Ship Canal Across the Isthmus Signed at Washington by Secretary Hay and Envoy of the New Republic

ESTABLISHES A VIRTUAL AMERICAN PROTECTORATE

Text of the Essential Features of the Agreement, Showing That This Government Obtains Every Advantage That Was Refused by Colombia.

WASHINGTON, Nov. 12.—It has been decided that the Panama canal treaty shall be ratified at Panama. The commission which arrived here last night will sail Dec. 1 for that state, arriving there on the 7th. It is expected that between that date and Dec. 10 the treaty will be ratified.

WASHINGTON, Nov. 12.—The treaty between the United States and the new republic of Panama, providing for the building of the ship canal, has been signed by Secretary of State Hay and Philippe Bunau-Varilla, the Panama special envoy. Following are the essentials of the agreement:

The keynote of the treaty is the provision in one of the very first articles, by which Panama cedes to the United States whatever land or lands throughout the republic of Panama this government shall find desirable in connection with the building of the operation and maintenance of the canal. In addition the treaty gives to the United States absolute sovereignty over the canal strip, which it is understood comprises between eight and ten miles on each side of the canal.

Within this zone the power of the United States is as absolute as if the zone were part and parcel of this country. In general it may be said that while the new treaty continues many of the provisions of the failed Hay-Herran treaty, it is not based on that convention, but follows not only the spirit, but the letter of the Spooner act. Thus, instead of the lease for a fixed period of the canal strip this new treaty provides for a perpetual grant of the right of way to the United States and instead of a complicated provision for courts of fixed composition—half American and half Colombian—to administer justice over the canal strip, the new treaty permits this government to exercise the most complete jurisdiction thereupon.

Permission also is given the United States to fortify the line and the terminals, and it may police it with troops. That portion of the treaty dealing with the fortification of the terminals is rather general, but sufficiently explicit not to be misunderstood.

The cities of Panama and Colon retain their municipal autonomy under the republic of Panama so long as they maintain public order and satisfactory conditions to the satisfaction of the United States. Failure to do this gives the United States, according to the treaty, the right to force strict compliance with the wishes of this government in the dictation and the United States can even use force to compel obedience to its rules as to public order and public health in these cities. The money consideration is the same in the new treaty as in the Hay-Herran convention with the exception that the \$10,000,000 go to Panama instead of to Colombia. The treaty further provides that the canal is to be neutral and open to all nations on even terms.

Two kinds of the treaty concerns details of administration which, while not necessary to the efficacy of the convention, will, it is believed, commend the new treaty to many members of the Senate, who have picked flaws in the defunct Hay-Herran convention.

Secretary Hay was at first somewhat undecided as to whether the treaty should be an amended form of the Hay-Herran convention of an entirely new paper. This point was decided at a luncheon at the Secretary's house to-day, at which were present Secretary Root, Attorney General Knox and a number of leading Senators. Their unanimous opinion was that an entirely new treaty would be more favorably received by the Senate.

The contention of the Washington government that the capital of the new republic be not located in either Panama or Colon was not pressed by Secretary Hay when he found that the Panama government was seriously opposed to it, and the treaty makes no such provision. This, however, is not regarded by the secretary as a vital point in view of the extensive rights which the United States has throughout the canal strip, and its especially wide jurisdiction in the terminal cities. This is the only point in the negotiations which caused the expression of a difference of opinion.

No time will be lost by Panama in ratifying the new treaty. Whether the ratification will be made by the government or by the people, it is not known. It is probable that the ratification will be made by the government, which has been determined. The second session of Congress has not yet opened, and it is not known whether the ratification will be made by the government or by the people. It is probable that the ratification will be made by the government, which has been determined.

It is probable that the ratification will be made by the government, which has been determined.

troublesome consequences, the general belief here being that the Republic of Colombia will bow to the inevitable and that the powers will soon follow the example of France and recognize the Republic of Panama.

The Standard regards the situation as a practical extension of American territory since the United States obtains effective rights of sovereignty in the isthmus, and the paper welcomes the result as a "distinct gain for civilization, good order and the promotion of commerce." The Colombian bondholders in England are endeavoring to bring pressure on the government to induce it to decline recognition of the new republic unless Panama assumes an equitable proportion of the Colombian debt.

Colombia Declares That She Will Not Submit to Separation

BOGOTA, Nov. 12.—Official reply has been made to the note presented by United States Minister Beaupre, informing the Colombian government that Washington had entered into official relations with the republic of Panama. The reply was framed by Senor Carlos Rios, minister of foreign affairs, who vigorously defends his government and threatens to march an army on Panama unless the United States immediately rescinds from its position.

That the Colombians are willing to fight to maintain their dignity, and, if possible, retain Panama, is shown by the strong support offered the government and the popular approval of Minister Rios' stand. The minister, in his note to the United States through Mr. Beaupre, says: "The Colombian government protests energetically at the attitude taken by the United States by the recognition of Panama and the warning that the United States will not allow Colombia to put down the rebellion. The heretofore friendly relations existing between the two governments have arrived at such a critical state that it is absolutely impossible to continue diplomatic relations unless the Washington government should immediately give notice that it has no intention to prevent Colombia from retaining the isthmus or to extend recognition to the belligerents."

The prompt reply is awaited from Washington as the Colombian reply is ready to march on Panama at once. Adding to the indignation of the people and stirring them in their preparations for war is a dispatch alleged to have been received today saying Germany "disapproves of the course taken by the United States and censures her for interference at Panama." This message has caused general rejoicing and on all sides are heard cheers for Germany. Gen. Perdomo has been appointed commander-in-chief of the Colombian army. He is positively the best-informed officer in Bogota on affairs on the isthmus, having acted in an official capacity at Panama during exciting times there. He was once governor of Panama. It is announced that the French colony at Bogota has extended sympathy to the Colombian government and offers to contribute \$500,000 for its support.

# Wanderine UNCONSCIOUS MAN GREW THIS HAIR. AWOKE WALKING

Testimonial No. 570.

Teamster Got Off to Fix Trace Then  
Lost Sense of Reason—\$1.35  
Is Missing.

THINKS SOMEONE STRUCK HIM

Police Found His Team and Wagon  
and He Regained It at the  
Station

The great mystery of Jacob Orth's life is what happened to him between the time he got off his wagon near the east end of Eads bridge to fix a trace and the time when he found himself on St. Louis avenue near Eighth street, East St. Louis.

In that elapsed time, according to the evidence, Orth lost \$1.35 and his team and wagon. The police found the team and wagon, but \$1.35 is still missing.

Orth is a Belleville teamster, and early in the morning started with a load of furniture for St. Louis. He delivered the load, was paid, and started back to Belleville. He says he remembers paying the toll at the west end of the bridge, or driving to the top of the east incline, and of getting off there to fix a trace. He was walking on St. Louis avenue near Eighth street, in East St. Louis, with a strange feeling that someone was wrong.

Slowly he began to gather together the threads of his thought. He wondered why he was there. As he passed an alley adjoining the police station, he saw a team and wagon. There was something strangely familiar about it, and Orth looked again. Then he remembered. It was his team and wagon. Orth, after he had finally perceived the bridge, said he thought someone had knocked him unconscious and robbed him. He got off to fix the trace, and that consciousness returned more slowly than did his powers of locomotion.

## MUST POLICY OF SUICIDE BE PAID?

Suit Which Involves Validity of  
Right of Fraternal Order  
Is Filed

A suit which involves the validity of the right of a fraternal insurance order to pay a policy on the life of a member who has committed suicide was filed Thursday. The United Order of Foresters, a Wisconsin corporation, is defendant, and the plaintiffs are George Schmidt, Jr., Louis E. Schmidt, Amelia Stuart and Bertina Harding, who state that they are brothers and sisters of Charles F. Schmidt, named as beneficiary in Forester's \$100 policy in the local lodge, Court Benton No. 123. It is alleged that Foz became a member of the local lodge on Dec. 1, 1921, and kept his dues fully paid until his death by his own hand on May 15, 1922, when he committed suicide. They allege that the defendant company refuses to pay the policy because of the fact that Foz took his own life.

## Cobblestones Through Window

George Grogan and Frank Riley were fined in the City Hall Police Court Thursday morning for plural offenses committed in and around the building occupied by the L. A. Suddenly, a large stone was thrown through the window of the building. Grogan attempted to defend Riley with a knife and was arrested. # SAYS HE IS TOO OLD TO LIVE.

Gardener, 58 Years Old, Attempts Suicide and Begs for Death.

John Foley, aged 58 years, insists that he is too old to live and has implored the City Hospital physicians not to attempt to save his life, but to leave him alone a few moments that he might end his life.

Foley is a landscape gardener, employed at the World's Fair grounds. Early Thursday morning he went to the 1st House, North Sixth street, went to the wash room and cut his throat. The wound is probably fatal.

Of the Stomach Which Many People Call Dyspepsia,

# CATARRH

Of the Bowels, Liver or Kidneys,

# CATARRH

In Any Part of the Human System, No Matter Where Located or of How Long Standing,

Mr. J. M. Harrell, A Prominent Attorney, Contracted Catarrh By Reckless Exposure and Has to Retire On

ACCOUNT OF DEAFNESS.

Goes to San Antonio, Texas, for Relief, But Is Disappointed.

READ HIS REMARKABLE LETTER.

San Antonio, Tex., Nov. 13, 1933.

DE LACY CHEMICAL CO., St. Louis, Mo.

Dear Sirs—I give my voluntary statement of the effects of De Lacy's Cin-Ko-Na and Iron in cases of Catarrh.

During a residence of two years in the City of New York, I was afflicted by Catarrh of the Stomach, Liver and Bowels, by reckless exposure to weather below zero, gave me no attention. Notwithstanding I removed to a milder climate, it grew upon me, and during the last winter, season of the year, I suffered from high malarial fever, with chills, head aches, deafness, despite skilled medical treatment and failure of most of the varied preparations for its special relief, it grew upon me until it affected my hearing so badly that I was almost deaf.

The mild climate of San Antonio, although recommended very highly for Catarrh, failed to benefit me. I saw your advertisement of "DE LACY'S CIN-KO-NA AND IRON" and I was glad to find that it afforded me great relief. I have now used seven or eight bottles of your medicine and am now feeling better than I have been for years, and my hearing is entirely restored. I regret De Lacy's Cin-Ko-Na and Iron is an antidote against a cure for Malarial and Dyspepsia, which I was also badly troubled with.

Yours very truly,

J. M. HARRELL,

117 Rusk Street, San Antonio, Tex.

Such letters as the one from this noted New York attorney are coming to us daily from all parts of the world.

DE LACY'S CIN-KO-NA AND IRON.

This is the time of the year to catch cold. Neglect it and it will soon start you coughing and finally settle on your lungs and in many cases turn to Pneumonia or Catarrh. Hence the old saying, an ounce of prevention is worth a pound of cure. So, if you have a cough or cold don't delay, but go to your nearest drug store for a bottle of De Lacy's Cin-Ko-Na and Iron and start taking it at once.

A bad stomach or a system full of malarial makes you feel bad all over. You feel tired and easily exhausted, feel restless and don't sleep good at night. You even more tired than when you went to bed. You have no appetite. You feel cross and irritable. It's hard for you to keep your mind on your work. This is all entirely wrong, and a few doses of a bottle or two of De Lacy's Cin-Ko-Na and Iron will brace you right up for its great stimulating properties make you feel good after the very first dose.

After you take a single bottle you become a De Lacy friend and you are so enthusiastic that you begin recommending it to your friends, and this is where it gains its world-wide reputation and its enormous sales.

Wherever you are, if you have a drug store, or if you have a home drug store, don't keep it, send one dollar for one bottle or five dollars for six bottles, and it will be sent by express, charges prepaid, by the De Lacy Chemical Co., St. Louis, Mo.

# WHO BROKE INTO HOUSE CLERK'S FILE

Delegate Griffin's Street Railway Supervisor Bill Mysteriously Disappeared.

# THEN IT APPEARED IN PLACE

Clerk Judge Has New Locks Fitted to His Desk and File Case

New locks have been placed on the desk of the clerk of the House of Delegates and on the filing case adjoining his desk.

They were put there Wednesday by a locksmith specially employed for the purpose by Clerk Joseph N. Judge.

The installation of the new locks followed a discovery by Clerk Judge. He discovered that a bill that had become mysteriously "lost" from the box of the committee on railroads in the filing case had "found" its way back into the box.

Only Mr. Judge and his assistant are supposed to have keys to the filing case. He knew that his assistant had nothing to do with taking the "lost" bill to find its way back into the box.

His conclusion, therefore, was that some other person had a key to the filing case. Knowing that this would permit this person to abstract bills from any committee box, he at once decided to install this key.

As a further precaution he decided on the new key for his desk, where he sometimes keeps bills.

The bill that was "lost" and then "found" is Delegate Griffin's measure creating the important office of supervisor of street railways.

It was introduced about three months ago. The bill provides a salary of \$283.33 and gives him clerk, stenographer and such assistants as he may need, not to exceed twenty.

Griffin is a member of the minority faction. Soon after his bill was introduced an almost similar measure was presented by Delegate Wathoff, a member of the majority.

This bill provided for a salary of \$500 a year, no deputies, but contained a provision that the House as well as the Council should confirm the appointee.

No report has been made by the railroad committee on either bill.

Griffin Bill Reported Lost.

About three weeks ago Delegate Wathoff, chairman of the committee, said that the committee would probably report the Wathoff bill favorably soon, after striking out the clause providing for confirmation by the House.

At the same time he announced that the Griffin bill had been lost. When the committee looked in the box it was there, but could find it nowhere.

On Tuesday of this week an inquiry was made of the clerk of the committee. Some bills before the railroad committee. He unlocked the filing case, took out the committee box and began to look for the desired papers.

He tells what followed:

"In this box there have been for months a batch of papers, tied with rubber bands, containing the bills, arbitrary and terminal matters. In looking through the box I noticed a paper protruding from this batch of papers. It was the Griffin bill. It was not there three weeks ago because it had been lost through every scrap of paper in the box. I immediately concluded that some outsider—that is, somebody other than myself—had taken it out of the box. I thought the circumstances sufficiently suspicious to demand a change in the lock and I ordered it changed at once."

"Of course, I cannot say that I suspect anybody. But I can say that I think whoever got into the box had some interest in this street railway supervisor bill."

Wathoff Bill Not in the Box.

"I think he got the Griffin bill out and then found that the Griffin bill would never be reported by the committee, so he went back and tried to get the Wathoff bill which the committee probably will report."

Just so happened that the Wathoff bill was not in the box at that time.

Mr. Judge explains that he had taken the Wathoff bill out of the box and had kept it in his desk temporarily.

The fate of the Wathoff measure is awaited with much interest by persons interested in seeing the street railway ordinance enforced.

At present no officer is charged directly with the enforcement of street railway ordinances. The operation of street cars is governed by the ordinance of Mayor Wells to the assembly in January, 1932.

He recommended a revision of the street railway ordinance and additional legislation making it compulsory upon street railway companies to comply with street railway ordinance of the message the railroad committee of the last Council and House of Representatives.

It is a bill waiting for the House to pass the new street railway ordinance, but before the House did so the session almost expired, and it was too late to take the action on the supervisor bill.

The new Council has not touched the bill. It is up in the House and then Delegate Wathoff of the majority faction will report it.

Dill-Wolf Engagement.

The engagement of Miss Laura St. Clair Dill, daughter of Judge James M. Dill of Belleville, to Walter A. Wolf, deputy treasurer of St. Clair County, is announced. The families of both are well known throughout the county. The wedding will take place in December at the bride's home. Philip Wolf, father of the bridegroom, has given the young couple a house and lot on East St. Louis as a wedding present.

# TIN CANS USED AS PAVING MATERIAL

Section of Park Avenue Now Being Reconstructed Resembles a Dumping Place.

Out on Park avenue workmen are building a street. At least, they say it will be a street when the work which is now going on is completed. At present it looks like the city dump.

The base of this unique thoroughfare is sound and good. It consists of crushed rock, and is being placed there by a local contracting company. On top of this crushed rock is a layer of minced refuse of every known and some few unknown and unclassified varieties.

Cars still run along the street, and the car tracks furnish the only possible passageway for vehicles. On both sides of the car what was once a street is now buried beneath a mass of dirt about two feet thick. Tin cans, rags, old shoes, rubbish from every imaginable source, meet the eye in every direction. Cold weather has temporarily hardened the stuff. A very short warm spell, however, will loosen it up and for a street will leave a soft and spongy mass.

The work is being done between Grand and Ohio avenues on Park avenue. It has not yet extended beyond Bwing avenue.

The opinions of business men and residents along the street toward the matter differ. One man, a grocer, when asked about it offered no reply, but pointing to his delivery wagon, shrugged his shoulders and walked away. Another treated the matter jokingly, and another became volubly indignant.

# NO MORE DEFAULT DIVORCE CASES

Judge Sale of the Circuit Bench Demands Appearance of the Defendants.

Made-to-order divorces were dealt a solar plexus blow by a decision handed down Thursday morning by Judge Moses N. Sale in the Circuit Court, setting aside the default in a number of cases and continuing them to await the appearance of the defendants.

In rendering the decision Judge Sale announced that hereafter his policy will be to set aside all petitions for divorce in which the defendants have signed their appearance.

In explanation the judge said: "The large number of divorce cases tried by default in which the defendants have acknowledged receipt of service smacks too much of collusion and makes it appear as though husband and wife are anxious to hasten their separation. I consider the temptation too strong. To permit appearance in default simply opens the door and invites a manipulation of the papers and the circumstances leading to the divorce."

This move on the part of Judge Sale was made after his attention had been called by Clerk George Bohley of Division No. 3 to no less than 30 cases in which it was evident that the defendants' names had been forged.

# COLD PAVES WAY FOR CHARITY

Salvation Army Officers Would Like Anything That One Can Give—Wagon Will Call.

Salvation army officers report that the cold weather has greatly increased the number of applications at their barracks and homes for employment and help. The officers are kept busy in trying to supply the wants.

The Army people are making an appeal for help from citizens. They say they will be glad to send for old clothing, furniture, stoves, bric-a-brac, papers, magazines, or anything else. If the articles cannot be used in their original shape, they will be worked over or sold, and the money used in the rescue work. They ask that notifications of willingness to donate be sent to Staff Captain Wood, and a wagon will be sent.

# BE A REAL WOMAN.

No. 805 Peace Avenue, Houston, Texas, May 14, 1933

I was barren during the six years of married life, suffering with painful menstruation and a dozen other aches and pains. I was a poor creature for a wife as I was not able to be up more than about half the time and daily grew weaker and weaker.

Wine of Cardui changed me into a different woman in five short months, made me robust and strong, ready and willing to assume the burdens and duties of married life and to enjoy its pleasures.

I am very grateful to you for my good health and am today blessed with a baby who is the pride of our home and this is all due to your medicine. You will not wonder then that I am grateful to you.

Wine of Cardui brings health to sick women. Wine of Cardui brings children to barren homes. Wine of Cardui transforms sick wives into real women—women who glow with health and are full of life.

Mrs. Mason was an invalid, a type of the thoroughly discouraged woman. By taking Wine of Cardui she has secured perfect health. She has become a happy mother and now rejoices in the life which was once a burden and a sorrow to her. A man can be almost an invalid and keep about but the troubles which generally afflict women are so vital that as Mrs. Mason said of herself "I was a poor excuse for a wife."

No woman should allow herself to remain in this condition. How can any refuse the health Mrs. Mason has? Wine of Cardui is freely offered to all. Any woman may secure exactly the same relief if she will take Wine of Cardui. Wine of Cardui is not a strong medicine but it is a certain cure for menstrual irregularities. It will not do impossibilities but it does cure bearing down pains, makes motherhood possible for barren women and relieves the pains at the monthly period. Secure a bottle of Wine of Cardui today.

Injured but Little One Is  
Saved

The promptness and bravery of Mrs. Barbara Kraft, 60 years old, of Belleview, saved her little granddaughter, Annie Lami, from being burned to death on her bed. In her work of rescue, Mrs. Kraft was burned about the hands. Her son-in-law, William Lami, and her daughter, Miss

Julia Kraft, who assisted her in putting out the fire, were also burned. The little one was uninjured. Annie, who is only 1 year old, was lying, cooking and kicking on a bed of her father's home at 612 West D street, before a coal fire. Her grandmother was sitting, knitting, in another part of the room. Her mother was ill in another room, and her father and aunt were with the mother. Presently Mrs. Kraft looked up and found the bed on which the child lay in a flame. She sprang for the little one, and found that it was hemmed in by the flames. Her cries brought help, but not until she had lifted Annie out of danger.

Mrs. Lami sustained a serious nervous shock from the accident.

## IN SOCIETY

One of Wednesday's fashionable weddings was that of Miss Edna Clifford, daughter of Mr. and Mrs. Alfred Clifford of Westmoreland place, and Mr. John Adams, son of New Orleans. The wedding took place at 4 o'clock and the ceremony was performed by the Rev. Dr. J. R. Winchester of the Church of the Ascension.

The bride had as her attendants two young sisters who are still in the school room, Miss Marion Clifford and Miss Irene Clifford. Both wore dainty gowns of pale blue chiffon and lace, simply designed. The bride wore a superb toilette of pale pink veiled in old rose point lace and her long tulle veil was held in place by a spray of valley lilies. Her bouquet was a shower of white orchids and lilies. The bridegroom was attended by Mr. Oliver Clifford as best man.

The entire house was a profusion of pink and white chrysanthemums and southern smilax. There was a reception to the new relatives and intimate friends and at 8 o'clock Mr. Adams and his bride departed for a honeymoon journey before going to their future home in New Orleans.

Invitations have been issued for the marriage of Miss Laura Betelle Paule of 341 Vio Grove avenue to Mr. Arthur Stephen Willow of Wagner place on Thanksgiving morning at 9 o'clock in the Church of the Holy Rosary.

The marriage Wednesday at 4 o'clock of Miss Mildred Hopkins, daughter of Mr. and Mrs. John Hopkins and Mr. Henry Hard of Cleveland, Ohio, claimed the attendance of fashionable circles. Rev. Dr. R. M. Holland was the officiating clergyman. The ceremony was performed at the Hopkins home on Lindell boulevard in the presence of only very intimate friends and near relatives. There was a reception later from 5 to 7 o'clock.

Miss Hopkins had her sister, Miss Lucile Hopkins, as maid of honor, and the Misses Robinson of Connecticut as bridesmaids. Mr. Hard had Messrs. Dye and Schless as groomsmen and Mr. Henry De-

The reception given by Miss Lucy Duncan on Tuesday afternoon at her West Pine boulevard home was one of the prettiest receptions of the season. The decorations were red and white, great masses of bride and American beauty roses were used to carry out the color scheme. Miss Jessie Benton, who is the guest of Mrs. Charles Duncan, was the guest of honor. Miss Duncan wore a beautiful gown of creamy broadcloth, attractively combined with cream chiffon and touches of crimson rayon velvet.

Miss Benton was in white lace robe over chiffon and Mrs. Duncan in rennaissance lace and chiffon. The dining room was a profusion of American beauty roses, and the table was ornamented with heavy lace cloth and roses and silver candelabra, with deep red silk candle covers. Mesdames Percy Wellman, Lily Clark, Rena Smith, all wearing pretty white organdy gowns, served chocolate and frame.

The ceremony was presided over by Miss Marie Pakewell. Miss Judith Hohltralle, Miss Lily Lambert and Miss Mammie Lee. Mrs. John Fowler will give a ball at the St. Louis Club on Thanksgiving evening for Miss Kilpatrick.

## DID STRUBBE SEEK REFUGE IN ST. LOUIS?

Theory That the Illinois Farmer Boy, Who Murdered Miss Alice Henninger Near Havana, Drove to This City in the Hope of Selling His Team and Eluding Pursuit.

### INVESTIGATION ADDS TO THE GRAVITY OF HIS CRIME

Testimony at the Inquest Shows That Strubbe, After the Murder, Procured a Spade With Which to Dig Victim's Grave and Was Methodical in His Movements.

### HAS ANYONE SEEN THIS MAN?

\$500 REWARD.

Five hundred and fifty dollars reward will be given for the arrest and delivery to officer of Mason County of one FRED STRUBBE, for the murder of Miss Alice Henninger, some time between the 14th and 15th of November, 1903.

Age about 21 years, height about 5 feet and 7 inches, weight about 150 pounds, light hair and wore it curly in front and parted in the middle. Drove a chestnut sorrel horse, weighing about 1100 or 1200 pounds, had a new buggy (John L. Dolson & Sons make) with name plate on back of seat. "Manufactured for Henninger & Meyer, Havana, Ill.," had a very odd axle, called the long distance axle or Dolson self-rolling axle, with one felt washer.

Will pay reward promptly on delivery of prisoner. Arrest and wire A. J. BROOKER, Sheriff of Mason County, Havana, Ill.

Special to the Post-Dispatch.

HAVANA, Ill., Nov. 10.—It is possible that Fred Strubbe, who murdered Alice Henninger last Saturday night and drove away from the scene of the tragedy in his buggy, is in St. Louis.

That he is in the World's Fair City seems to be a plausible suggestion. It is based upon the theory that Strubbe would fear to offer his horse and buggy for sale outside of a large town. The distance between Havana and St. Louis can be covered by a good horse, such as Strubbe's was, in two days. Strubbe, it is suggested, could easily dispose of his animal and vehicle at St. Louis or St. Louis, without any suspicion toward him and with the money thus obtained be in a position to support himself until he should determine the next step to be taken.

The St. Louis police have been notified

## CLEVELAND ACCUSED OF VIOLATING GAME LAW

Warrants Issued for Former President and Members of His Party Charge Them With Hunting in Virginia Without the Required License.

Special to the Post-Dispatch.  
PORTSMOUTH, Va., Nov. 12.—Warrants have been issued for former President Grover Cleveland, Dr. Paul Van Dyke, Ernest Gettings and Andrew Jones of the Cleveland party, who are gunning on the preserves of the Back Bay Gunning Club in Princess Ann County, charging them with violating the new game law of Virginia, which requires every nonresident to take out a \$10 license.

The Cleveland party, it is alleged, is now

to look out for the fugitive. Although the sheriff has notified all the authorities within a radius of a hundred miles and searching parties have been scouring the woods in the vicinity of the Strubbe homestead all efforts to locate the boy or his horse and buggy have so far proved unavailing. No trace of the murderer can be found.

The Grave Dug

by the Murderer.

The blanket in which the body of the girl was wrapped was identified as belonging to Henry Strubbe, the father of Fred Strubbe, and as the one the young man had in his buggy on the night of the tragedy.

In digging the grave the murderer had taken the precaution not to leave any loose dirt on the ground after filling the grave, and it is thought that he threw the dirt into a horse blanket or robe in digging out the grave. The grave had been carefully filled and every vestige of dirt was placed back in the hole and all carefully covered over with leaves.

The grave was dug with a spade, and the marks of the implement can be distinguished. The grave was two feet deep and six feet long and the girl was laid in it with her arms crossed and with her short cloak thrown across her head to protect her face from the dirt. In her hand was tightly clutched strands of hair which have been identified as coming from the head of Strubbe.

Strubbe Brought

Ella's Box.

The two Henninger sisters did not attend the box social at the Dieffenbacher schoolhouse with Strubbe, but he left his home shortly before 7 o'clock and arrived at the school house soon after. He had persisted in paying attention to Alice Henninger for some time past, and she had carefully avoided him, and had politely refused his many invitations to attend social functions with him. On the night of the box social Strubbe did not bid on the lunch box of Alice Henninger, but had another young man do so and the box brought the highest price of any offered at auction. When the bidder for her box had been given the price Alice asked him if he had bid it in for himself, and he replied that he had bid it in but not for himself, but for Fred Strubbe.

This seemed to worry her and she seemed downcast for a time. Strubbe and Miss Henninger ate their supper together, however, and afterwards they mingled in the crowd and she seemed in the best of spirits. He seemed downcast, however. At 10:45 o'clock that night the Henninger sisters started to go home, walking as they had come. Strubbe caught up with them and asked that he be allowed to drive them home as he was on his way to his own home. Alice

gunning in violation of this law, but that

their failure to comply with it was an

oversight seems quite likely.

On the first attempt to serve warrants,

the party was not seen, and the warrants

were marked across the back "Not found."

The worst phase of the case to Mr.

Cleveland is his poor luck, not enough

game being bagged to send Mrs. Cleveland

her usual box preceding the former Presi-

dent's homecoming. The probabilities are

that the Cleveland party will spend two

more days at Back Bay and return on Sat-

urday.

laughingly consented and the trio drove

off together. When they arrive at the

Henninger homestead Strubbe alighted and

assisted Alice, the younger sister, to alight.

As soon as she had gotten out of the rig he

quickly jumped in and whipping up the

horse drove off down the road. This was

the last seen of the girl alive.

Evidence tending to show that Strubbe

took a very circuitous route to the lonely

woods in which the body was found were

disclosed at the inquest. That he murdered

the girl before arriving at the spot where

he buried the body is also evident. There

is not a sign of a struggle at this point.

The woods in which the girl was buried

is a lonely spot and is about one-quarter

of a mile in width and three-quarters of

a mile in length. There is not a house within

half a mile.

Fred Strubbe was one of the most popu-

lar young farmer boys in the county and

was universally liked by all who knew

him. He was an industrious, hard-working,

sober and obedient son. Mrs. Strubbe stated

today that she could not remember of a

time in the past two months when Fred

Strubbe had been away from the home-

stead unless some member of the family

had been with him.

When asked if he had acted strangely

during the past few weeks both his father

and mother stated that they had noticed

nothing strange in his actions except that

he was more quiet than usual. This they

accounted for from the fact that he was

growing older and that his quiet demeanor

was caused by this. Both realized that he

was desperately in love with Miss Hen-

ninger, but neither suspected that he would

resort to the measures that he did.

The Inquest

and Verdict.

The body was taken up and conveyed

a distance of two miles to the Henninger

residence. A. F. Terrell was chosen fore-

man of the jury of six men who heard the

testimony of the witnesses, the families and

the doctors.

Messrs. Larson, Anderson and Ben

Kreus, besides testifying to the finding of

the body, stated that at the "box supper"

Strubbe had not seemed as careful as

usual, but was not noticeably morose, that

he and the victim had been together only

while eating.

Heavy Strubbe testified that the son had

left home about 7 o'clock, on Saturday

night, and that he had not been home since.

The father stated that he had taken no

weapon with him, though he had taken a

lance, something which he had only done

once before; that he had not been so care-

ful about home for the past two or three

weeks; that he had "gone with the girl

for some time," but that he had not talk

with his father about her. The blanket and

blanket pin were recognized by the witness

as belonging to himself.

Miss Ethel Henninger was next on the

stand and related the circumstances of

their ride.

Drs. Servoss and Hanly of Havana and

Dr. Grimmer then made a thorough exami-

nation of the body.

A written statement signed by these phy-

sicians gave a detailed account of the

wounds and the condition of the body. Be-

sides the wounds on the head there were

marks (though not of choking) and bruises

on the neck and shoulders. The doctors

thought that life had been extinct for from

15 to 48 hours. The statement concludes

with the following:

"The physicians were of the opinion that

the person had been killed by being struck

repeatedly over the head until dead and

then had been made the victim of a criminal

outrage."

The jury determined on the following

verdict:

"We the undersigned jurors, sworn to

inquire into the death of Alice Henninger,

do hereby find that she came to her death

on oath do find that she came to her death

by wounds in the head caused by some

instrument, as we believe to have been in

the hands of one Fred Strubbe at the

time such wounds were inflicted, and we

recommend that the said Fred Strubbe be

held to await the action of the grand jury

of Mason County, Illinois, without bail.

# THE POST-DISPATCH'S BEST 6 MONTHS

JANUARY TO JUNE 1935

## SUNDAY CIRCULATION 204,209

AVERAGE DISTRIBUTION PER ISSUE  
 50,000 Largest West of the Mississippi

The German soldier is paid 7 cents a day. Watching on the Rhine at that figure is extremely patriotic.

It is better to be governed by what dead men did than to be governed by what the wrong kind of live men do.

The packers of canned goods are to meet in February, perhaps to do what they can to increase prices of what they can.

Garrett and Dolan "get the limit." Their fate will stand as a warning to other "workers." Crime is dangerous in Missouri when the United States courts have jurisdiction.

### SENATOR ACCUSED OF GRAFTING.

United States Senator Charles H. Dietrich is charged with selling the appointment as postmaster at Hastings, Neb., for \$2500.

The postoffice used to be in the Grand Army building in that town. It is charged that Dietrich put up a building and couldn't get a tenant at \$800 a year, so he tried to induce the postoffice department to lease it at \$2400. Postmaster Hahn reported against it on the ground that the rent was exorbitant, but Dietrich finally got a lease at \$1300. Hahn was ousted because of his independence and Fisher, the present incumbent, appointed in his place, paying, it is said, \$2500 for his commission.

These are the charges which a United States senator must meet. Mr. Dietrich claims that it can all be explained; that "politics" is the motive force, etc. Let us hope he can make good his defense.

Arkansas' net increase in miles of new railroad in the past year in 1935, and 839 more miles are proposed. Missouri rejoices in the rapid development of neighbor Arkansas.

### UNIFORMS FOR WOMEN.

The recent protest against uniforms for certain city employees in St. Louis was neither loud nor strenuous. The innovation concerned men only. And the large army of railroad and street car men who wear uniforms without complaining, to say nothing of the uniform wearers of the army and navy, seems to show that men have no special aversion to being classified and equalized in outward appearance.

But, if the movement is not checked, it will undoubtedly extend to the working women, whose numbers are yearly increasing. The Pennsylvania Railroad Co., which employs women ticket agents, has issued an order that, beginning with the first of next year, "all ticket and station agents shall wear a regulation uniform, consisting of blue cap, coat and trousers." No exception is made in behalf of the women employees.

If the men workers care nothing about this matter on their own account, it may be as well for them to interest themselves in behalf of the women workers, whose uniforms will detract from their attractiveness.

The man who "believes in no laws" is not much more dangerous than the man who believes in all laws and observes few of them.

### SENATORIAL GABFESTING.

Senator Gorman's frank confession that, at the Senate caucus of Democrats, to get together on the canal question, "we all talked and will do our thinking afterward," is calculated to interest the American public.

It may be conceded, of course, that this government's action in aiding and abetting the secession of the state of Panama from the republic of Colombia was distinctly puzzling to Democratic senators, as to the world at large. It sort of "threw things out of gear," so to speak.

But the country is waiting for news from the Democratic members of the Senate on the new situation, and is solicitous to know what will be the policy of Democratic leaders. It is high time to think. It was time when the Democratic senatorial caucus was held. Aimless and scattering talk is decidedly futile and disappointing at such a moment. President Roosevelt has audaciously forced a sensational issue on the Democratic party.

Now that "we all have talked at much length concerning the issue, what do "we all" think about it? The country pauses for a reply.

The Kentuckians are delighted with the progress of the Ex-Exposition and they are declaring that their building is the handiwork on the grounds, except, perhaps, that of Missouri. They add that no state building has a view equal to Kentucky's.

### SOCIETY WOMEN.

Mrs. Robert J. Burdette takes a narrow view of the "society woman."

The phrase "society woman" is ridiculous. All women are members of society. They cannot well be otherwise, and to restrict the application of the word to those women who make pleasure their only or main business in life is to degrade a noble word and confuse the mind of the ignorant.

Using the word in this restricted sense, however, Mrs. Burdette says: "The society woman is one who has a capacity for the serious along with her social nature which makes her capable of frivolity at an afternoon tea party and in all sincerity attending a Wednesday evening prayer meeting."

This is true of all good women. The prayer meeting, the club discussion, the afternoon tea, the dinner party, the social meeting, all are social functions.

because woman is a social animal and develops her social nature, that is, her human nature, by strengthening the bond of loving fellowship with all these means.

The woman who spends her time doing silly things such as are reported of the ridiculous 400 has a very imperfect title to be called a society woman. In fact, she is the least social of women, because her mind is not set on her sister women to promote the social good, but upon herself to gratify her own petty personal desires. She needs society. She is silly because her social nature is repressed and selfishness tends to make her silly and stupid.

When every woman shall give free play to all her instincts, faculties and aptitudes, always observing measure and the moderation enjoined by nature, she will become the perfected society woman. When that time arrives we shall all be society men and women instead of being onesided, lopsided fragments of manhood and womanhood.

Mr. Shaw's statement that we do more manufacturing than any two other countries by more than \$3,000,000,000 suggests that there may be more or less trouble when other countries, tired of waiting for Mr. McKinley's reciprocity, shall raise their tariff walls as high as ours.

### THOU SHALT NOT STEAL.

The young man who stole an oration whereafter he won the Colorado State School oratorical championship, is making a bad start in life.

He argues that "thought is common property and no one can corner it as he would the wheat market or some other commodity."

Thought is common property, but the expression of thought is peculiarly and most strictly private property.

Somebody—wasn't it Wordsworth?—said Shakespeare wasn't so exceptional. "I could have written the plays if I had had the mind to it." Whereupon Charles Lamb said: "So it was the mind you lacked!"

This young man, who doesn't perceive the line dividing "mine" from "thine," but thinks mine includes thine, if only the thought is the same, had some great thoughts on the "Sublimity of Convictions." But unfortunately he hadn't the mind to express his great thought and was obliged to purloin another's expression of the same subject.

He must learn that among the convictions that are sublime is the conviction that a man should stand on his own feet, rely upon his own powers and not appropriate the fruits of another's labor. A man who works hard to mould a great thought and give it a shape in which it will tell for all it is worth has a right to the credit and ensuing emoluments. The production is just as much his as if it were a bushel of wheat bought and paid for or grown on his own farm.

The Black Hills will see the Ozarks and the Ozarks will see the Black Hills at the greatest Exposition.

### CRUELTY TO ANIMALS.

The Post-Dispatch has received letters recently calling attention to cruel treatment of horses and mules in various parts of the city, and urging that the humane society and the police exert themselves to put a stop to it.

It is a fact that most of those who complain about cruelty to horses in this city are newcomers or visitors, and they are apt to assert that no such conditions exist elsewhere.

St. Louisans who have lived in other cities know that cruelty to animals is no more prevalent here than elsewhere. The people of this city are at all times ready and willing to put a stop to such cruelty when it comes to their notice.

At the same time, the suggestion to the humane society and the police should be acted upon. Men who treat horses or mules with brutality should be punished.

If Gov. Abiram Chamberlain of Connecticut is a kinsman of Zeigler he may not take the high moral stand so rarely taken by relatives of persons accused of crime.

The understanding between Russia and Japan means that they have agreed to the status quo until Russia wants to change it.

In Germany a soldier's allegiance is held to be due to the crown rather than to the state. Another reason for emigration.

San Domingo is a good subject for the peculiar diplomacy that prevails in Washington.

### POST-DISPATCH SNAPSHOTS.

We all shall certainly remember  
 Our nostrils smoked in mid-November.

Zeigler should have gone with one of his Arctic expeditions.

The Hon. R. O. Moon of Pennsylvania doubtless takes pride in the lunar aspect of his second initial.

The thief who stole Mr. Busch's wine may have argued that "good wine needs no Busch," or that a good Busch needs no wine.

Miss Susan Anthony is looking younger than ever, is still making addresses, and will doubtless be heard in St. Louis next year.

The rejection of Cuban reciprocity may happen before the appointment of a rat-stuffer for the national museum is consummated.

It is not entirely safe to christen a child at a political club. Johnny frequently has different politics from that of his pa when he has reached a reasoning age.

If Gen. Wood saddled upon Havana the Sociedad Anonima Jai Alai, how can he possibly expect to be approved by Congress? How many dads have lost their family money in "societies?"

### POST-DISPATCH ANSWERS.

Legal questions not answered. Business addresses not given. No bets decided. Don't "bet" on anything. Address all letters. "Answers, Post-Dispatch, City." To All Questions—Don't write a word but the question and signature. Answer has no time to read more. Be merciful.)

LEND.—We hear of no skating rink openings.

A. G.—Try writing to mayor or chief of police of Prescott.

J. F. G.—Owners in black will be required to pay their proportion for side alley.

O. A. S.—The Great Eastern was built at Millwall on Thames. The launching process lasted from Nov. 2, 1857, to Jan. 31, 1858.

H.—We know of no authority for changing the accent of "address" to the first syllable. Stop up all places where narrow nests are made.

NELSON.—We do not know when Alice Nelson will visit St. Louis. Bluebird is not playing this week. Will be in Chicago next week.

M. C. and OTHERS.—Letters asking for positions as housekeeper or such as involve advertising for work cannot be used in the letter column.

G. KING.—How the Missouri "show me" originated is in so much dispute that it would be absurd to try to explain how it came into use. There are many different stories in regard to it.

R. H. C.—If a person acts upon the stage and receives money for his acting he may be an amateur or a professional. It depends upon how long he has "acted upon the stage," and where.

E. M. N.—It would take more than a day to see all that will be shown at World's Fair. The time necessary depends upon how many things interest the visitor. Some people would want three months.

CONSTANT READER.—Police have no more rights on a street car than other persons. They are expected to keep order and report promptly. (See fourth rule under heading.)

C. N.—The original grapes are said to have been from the World's Fair grounds. We suppose they are "real grapes." Grapes are always wonderful. No grape number of them. They are in places.

## JUST A MINUTE

WITH THE POST-DISPATCH POET & PHILOSOPHER

### LOOK OUT!

Postmaster-General Payne was so anxious to be everywhere connected with the Baumhoff case, or who had complained of the ex-postmaster's conduct, that he fired a woman who was never employed at the postoffice. Mr. Payne may next take it into his head to use the whole community.—Post-Dispatch editorial.

Did you ever mail a letter?  
 Did you ever chance to pass  
 By the grim postoffice building  
 With its swinging doors of glass?  
 Did you ever buy a stamp there  
 When the place was on your route?  
 Did you ever speak to Baumhoff?  
 Then look out!

Did you ever see a postman  
 In his noble suit of gray?  
 Did you ever dodge a wagon  
 Full of U. S. mail? Oh, say!  
 Did you ever read the list of  
 Letters advertised? No doubt.  
 Did you ever speak to Baumhoff?  
 Then look out!

Did you ever chance to buy a  
 Money order? Not a word!  
 Did you ever send a letter  
 That was duly registered?  
 Did you ever use a pen there  
 That was lying loose about?  
 Did you ever speak to Baumhoff?  
 Then look out!

In the P. O. elevator  
 Did you ever take a ride?  
 Did you ever pass the building  
 When the clerks were all inside?  
 Of the wisdom of great Henry  
 Payne have you a single doubt?  
 Did you ever speak to Baumhoff?  
 Then look out!

### A Word With Our Footpads.

We arise to a point of personal privilege. Ever since the footpad industry obtained a foothold in St. Louis (and it was only natural that the footpad should obtain a foothold) we have been the firm friends of the gentlemen engaged in the business, who organized the Footpads' Benevolent Association, for the relief of moneyless pedestrians, at our suggestion.

We were ever ready to say a good word to the public for the reputable members of the profession, and we can say without boasting ourselves unduly that "Just a Minute" has done more than any other agency to temper the feeling of the public toward the artful highwayman, whose business is little understood and who, in consequence, has been much maligned.

We have never hesitated to spring into the breach in defense of a class of artists who have had a hard struggle for existence. We have never failed to exploit their singular grace and their notable politeness, to say nothing of their admirable dexterity and the finesse which has enabled them to obtain the summum bonum of human existence—a living without labor. These and others favors, we had thought, entitled our opinion of highway matters to some consideration, but it seems that we have been barking up the wrong tree.

However, as aforesaid, we arise to a point of personal privilege. We desire to know why it was that two members of the Footpads' Benevolent Association so far forgot themselves yesterday morning as to lock a gentlemanly saloonkeeper in his ice box, after having partaken of his liquors without money and without price, and also after having deprived him of eight cash dollars, which also had earned by the arduous labor of turning a brass faucet and by straining his eyes to see which bottle had "B" for "rye" on it and which "B" for "bourbon," when the mercury registered only fourteen degrees above zero.

"This painful lapse of etiquette shall have been explained to our satisfaction we must renounce all affiliation with F. B. A. and withdraw from it our moral and financial support."

### Mr. Hawes

He had a speech of ardent full  
 From start to cynicism, he said  
 He took it up to Hannibal  
 And tried it on the dog.

We hope the St. Louis Transit Company will be able to locate the microscopists who placed those heaters in its cars. It would be a burning shame to have the varnish on those 450 new ones scorched so early in the season.

If Mr. Roosevelt doesn't watch out he will soon be put to the painful necessity of recognizing another republic. The cruiser Baltimore has landed a bunch of marines at San Domingo.

A St. Louis man who was drafted for jury duty told the judge that he does not believe in law. He wanted the lawyers to accept him justice he was, without one plea.

No hope need be entertained that 19-degree weather will have any effect on Giganter's Badlines, the Chicago terror. He is used to freezing weather.

King Edward of England and King Victor Emanuel of Italy spent a whole day shooting pheasants. It was royal sport.

St. Louis has a speck of radium, which is worth \$2,000,000 a pound, and 19 convicted bootleggers are still running around loose.

Moral: Never call him "Sport" unless you are dead sure he will "please burn this letter."

The usual "delay in plans" is noted in the case of Mr. Zeigler.

Got any radium about you?

### NO SUFFERING.

"For four days and nights, sah, I was without water—didn't have a drop."  
 "My! You must have suffered greatly, major."

"No, I didn't suffer, exactly, but it was very disagreeable, sah. My face and hands certainly needed washing."

"But you must have been dreadfully thirsty!"  
 "Oh, no. Fortunately, I had two full quarts with me."

### HE REALLY DID.

He really did. He really did. He really did.

## OF INTEREST TO WOMEN

## POST-DISPATCH FASHIONS.

PRETTY RECEPTION GOWN FOR YOUNG GIRL

### Winter Hats.

The choosing of winter hats is a serious problem this year, and it is well to remember that not only must the color be in fashion, but the shape must be in fashion also. Following out the law of exaggeration that has been fashionable for so long a time, if the style of the gown is one that makes the wearer look short and broad, the hat is broad and flat; if the lines are long and slender the hat gives height and slenderness. But here also it is foolish to choose an unbecoming hat simply because it is a fashionable shape and color.

Hats to match the costumes in color are very smart this season, as are also the all-black hats again, and the colored hats will be worn not only with the gowns they match, but with the black costumes as well, and indeed with gowns of contrasting colors they will be seen. Small and large shapes are alike in favor.—Harper's Bazar.

### Chop-Suey Sundae

Have you heard of the chop-suey sundae? It is the very latest thing in soda water concoctions. The real chop suey of the Chinese restaurants is made of a conglomeration of onions, young pork, lamb, celery and chicken blood—at least so say those who claim to know the ingredients of this fascinating Chinese dainty. It must not be believed for a moment that chop-suey sundae is made of any such mess. The drink gets its name because it resembles in hue the chop suey of Chinatown. In fact, it is as black as "seven black cats." It is so black that it might be named a "Nocturne" without any attempt at exaggeration. It is made of eggs, dates, chocolate and soda water. When the drink is all prepared it resembles effervescent ink, but in taste—well, just try one and form your own opinion.

### Happy Old Age.

You sometimes see a woman whose old age is as exquisite as was the perfect bloom of her youth. You wonder how it is her life has been a long and happy one. Here are some of the reasons:

She knew how to forget disagreeable things.

She kept her nerves well in hand and inflicted them on no one.

She mastered the art of saying pleasant things.

She did not expect too much from her friends.

She made whatever work came to her congenial.

She retained her delusion, and did not believe all the world wicked and unkind.

She believed the miserable and sympathized with the sorrowful.

She did unto others as she would be done by; and now that old age has come to her, and there is a halo of white hair about her head, she is loved and considered.

This is the secret of a long life, and a happy one.

## IN PURSUING WIFE HE LOST CHILDREN

Father Sues for Recovery of Two  
Girls and Boy From Their  
Mother

WON FROM HIM BY STRATEGY

Successor in Wife's Affections Is in  
Court to Aid Her in  
Defense

The habeas corpus proceedings in which George Reor of Crystal City, Mo., seeks to recover possession of his three children, Christopher, aged 14; Carrie, 12, and Nellie, 9, from their mother, Mrs. Edward Long, of 537 South Jefferson avenue, are being heard in the court of criminal correction Thursday afternoon.

Reor alleges that the children were stolen from him by Edward Long, the husband of his divorced wife, while he was detained in jail at Potosi, Mo., Sept. 2, having been arrested at the instance of Long.

Mr. and Mrs. Reor separated several years ago, and in September, 1898, the wife secured a decree of divorce. From the time of the separation Reor says he released his efforts to get the mother of his three children to return to his home and care for the children.

At the October term of the Washington County Probate Court Reor was appointed guardian of the children, as property had been left them. He was then living at Potosi.

He did not fear efforts to take his children from him, and was unable to explain why he should be arrested and placed in jail on a charge of assault and battery on Edward Long Sept. 1.

When the case was called, no witnesses were present to prosecute the case and Reor was discharged.

He hurried home to find his children gone. Then he knew.

The charge, he says, was a subterfuge to get him out of the way while his former wife and her husband secured the children. Reor hurried to St. Louis and at once took steps to secure possession of his children. Since he instituted the suit he has moved to Crystal City.

The three children, Mr. and Mrs. Long and Reor were all in the courtroom during the hearing. Reor was represented by Attorney C. Lew Gallant.

Mr. and Mrs. Long have gone to Potosi in response to an invitation Reor had extended his former wife to attend the funeral of their youngest child, barely 8 years old.

Long did not attend the funeral services held at the Reor residence, as Reor had notified Mrs. Long that he had learned of her second marriage and forbade her bringing another man to his home.

## BUNDLE OF PAPERS PUTS THE CRIME SAVES HIS LIFE ON HIS FATHER

Veteran Carrier of the Post-Dispatch  
Is Struck by Car, but Escapes  
With Slight Injuries

Tim Murray, a newspaper carrier living at 125 North Fifteenth street, who owns his life to a bundle of Post-Dispatches, was again treated Thursday at the city dispensary.

While selling his papers Murray was struck by an eastbound Olive street car at 125 North Fifteenth street, who owns his life to a bundle of Post-Dispatches, was again treated Thursday at the city dispensary.

The bundle of about 100 papers which he bore under his arm lodged beneath the wheels of the car and pushed him off the track to one side. The only injuries he received were a scalp wound and a badly bruised side, neither of which is serious.

The accident occurred on Olive street, between Sixteenth and Seventeenth, as Murray was crossing the street from the north side to sell a paper. He did not see the car coming and the first intimation he had of his danger was when he was hurled violently to the ground and caught in a glimpse of the car towering above him.

A policeman was on the car at the time and he immediately took the sufferer to the dispensary, where his wounds were dressed.

The papers were ground almost to powder and covered with blood. Murray expects to be selling his papers again in a few days.

## Widow Aids Husband's Slayer.

Lawrence Davenport was found not guilty of murder by a jury in the circuit court at Belleville Wednesday after an hour's deliberation. He killed his brother-in-law, Hugh Wilkerson, at their home in East St. Louis in September, using a knife after he had been struck several times with brass knuckles. Mrs. Wilkerson, widow of the man killed, testified for Davenport, stating that her husband had struck Davenport first.

## NEW PUBLICATIONS.

**HARPERS BOOK NEWS**  
DR. LAVENDAR'S PEOPLE.  
"When first we read 'Old Chester Tales,'" says the New York Times, "it was an event." and Dr. Lavendar's People, a second volume of these stories, is well up to the high standard set by the first. Dr. Lavendar himself is one of the creations of fiction that will not willingly be allowed to die. In his freedom from cant, his shrewdness, his wisdom, his sympathy, in all the little crotchets and whimsies of his nature, he is the most lovable of men." This criticism is but one typical of the many that have greeted Mrs. Deland's new book everywhere. If unanimity of praise is any indication of success, Mrs. Deland has again achieved triumph.

## HAWTHORNE AND HIS CIRCLE.

Julian Hawthorne gives in this volume his recollection of his father and his father's friends. The Chicago Tribune says that it is "a great treat," and the Baltimore Sun speaks of the volume as "one of the most delightful surveys of the literary men of Hawthorne's period that it has been our good fortune to enjoy."

## THE SUBSTITUTE.

Like "Abner Daniel," this story by Will N. Harben is peculiarly American, and it deals with the type of people known to most of us only through this author's books. They are the simple easy-going people of Northern Georgia—a people who lead commonplace lives, yet lives as full of pathos and humor as those of Miss Wilkins' New England folk. In his interpretation of this simple life Mr. Harben has revealed a new field in our literature.

## THE DAMSEL AND THE SAGE.

In Elinor Glyn's latest book we are given a series of piquant, spicy conversations in which an inquiring maiden seeks the wisdom of a man of the world. The two discuss life in many aspects. It is as clever as "The Reflections of Ambrosine" and as naively daring in its humor as "The Visits of Elizabeth."

## FIGHTERS OF MINE FIRE MAKE GAINS

One Hundred Men Battle Against  
Flames Which Have Raged  
Four Days

Thursday afternoon, the 100 men who have been fighting the flames in the John A. Moore coal mine at Priest's Park, midway between East St. Louis and Belleville, on the Southern railroad, made their first successful clearing in one lead, and have gained time right up to the present.

They hope, now that they have got closer to the fire, that they may succeed in vanquishing it within the next 48 hours.

The fire was discovered Monday morning when the men started to work, and is supposed to have been the result of spontaneous combustion of crossed electric wires. Seven miles that were not there were saved, having been in one of the last of the passages to become filled with smoke.

**CITY NEWS.**  
You can find these nice, cool days more winter goods to choose from in the Crawford store and at lower prices than elsewhere. Be advised to go there and see.

## WILL RETALIATE FOR ARREST

St. Louis Man for Whom Illinois Requisition Was Issued Gives Bond for Appearance

George W. Quigley, of 441 Labadie avenue, who was arrested in St. Louis and taken to Belleville on a requisition from Gov. Yates of Illinois, gave \$500 bond Thursday morning for his appearance before Justice Wangelin Saturday morning at 10 o'clock.

Quigley's attorney stated to the court that suits for damages for malicious prosecution would be begun as soon as the identity of the responsible persons could be determined.

Quigley spent Wednesday night in jail at Belleville. He is charged with information filed January 19, 1903, in the case of Belleville with perpetrating a confidence game in connection with a bid which he gave for the sale, under order of court, of the Burr property consisting of 500 acres near New Athens. He is charged with having used the aliases of William George and William W. Quigley.

It is charged that Quigley bid up the property over other bidders, finally getting it with an offer of \$25,000. He gave a due bill, it is charged, which was not paid. The heirs of the estate asked for and secured a dissolution of the sale and an order for another sale.

Quigley says his failure to meet the due bill was due to the failure of a deal which was in progress. He says he acted as a bona fide agent for the heirs, but that their plans did not go through.

Quigley's bond was signed by William Borders of Sparta, Ill.
